Cristalized Collection by Hanne Enemark

Vessel is pleased to present new art glass pieces by glass artist Hanne Enemark. Enemark is a 2010 graduate of the Royal College of Art's glass department, arriving here via Denmark, a country immersed in a strong design heritage. She is a designer and maker and her sensitivity to the hot and cold qualities of glass draws heavily from her Scandinavian upbringing.

The softness of her blown bubbles are in stark contrast to the addition of the hard gem like elements clustered at the foot of her pieces. The works are labour intensive and all pieces are hand blown and polished using age old techniques. The resultant forms celebrate the many conflicting qualities of glass, from airy fluidity to sharp rocky shards.

Enemark has shown her work globally and is represented in the prestigious Ebeltoft Glass Museum permanent collection. She has just been shortlisted for the British Glass Biennale 2010 Glass Sellers Student Award.

Crystalized vase £1250. Each piece is unique.
